

## IP Experience – Some Highlights

Chemistry/Materials  
Science

**Life Science**

Pharma/Medical  
Instruments

Engineering

List for all technologies

Single block PCR thermocycler	Patent opposition	Mullis' Nobel Prize-winning PCR work
bFGF – fibroblast growth factor	Patent opposition & appeal	Acting for renowned research institute
Auxotrophic mutant bacteria for vaccines	Patent opposition & appeal	Acting for market leader
Domain antibodies	Patent opposition	Acting for UK start-up, now part of GSK
Mutated ADP-ribosylating toxins	Contentious patent prosecution	Acting for market leader
Recombinant mucosal vaccine adjuvant	Patent opposition	Acting for market leader
GP75 for use in melanoma vaccine	Patent opposition	Acting for market leader
Growing/harvesting Paramyxoviridae	Patent opposition and appeal	Acting for market leader
